**RESPONSE TO THIRD OFFICE ACTION
(NON OFFICIAL / DRAFT)**

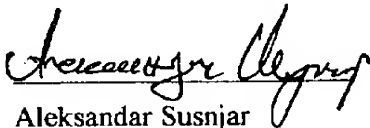

In response to Office Action mailed February 02nd, 2004, please read the included comments and additions.

Sir,

It is impossible to choose one of identified set of claims to represent my invention, as I explained in detail in my response to previous office action. Any one set of claims describes aspects of the invention that depend on others. Choosing any one of them would mean breaking up the invention. Selecting any set randomly is almost as good as a conscious choice as it will mean selecting only one part of the entire proposed mechanism which can not function nor has meaning without other parts.

In sincere hope that you and US PTO will recognize this fact, I hereby make an election to one set (IV) of claims (16-18) for the sole purpose of satisfying the formalities.

Yours very respectfully,

Aleksandar Susnjar
